WHAT IS THE PURPOSE?

In line with **Articles 1.2.001 and the articles that follow** of the UCI Regulations, each year organisers shall apply to their respective National Federations to have their races included on the world or continental calendar. **(Article 1.2.006)** With the exception of UCI WorldTour events, the world and continental calendars are determined by the UCI Management Committee on the advice of the Continental Confederations for the competitions which concern them **(Article 1.2.005)**.

To be able to be registered on the UCI International Road Calendar, a race must guarantee the participation of **at least 10 teams, among which 5 foreign teams (Article 2.1.003)**. A mixed team is regarded as a foreign team if the majority of its riders are of foreign nationality. **(Article 2.1.004)**.

The organiser of Cyclo-cross, Mountain Bike, BMX Racing, BMX Freestyle events on a national calendar in which riders of **three or more foreign federations** participated (**two foreign federations** for a Track, a Trials or an Indoor Cycling event), must request the inclusion of the next edition of his event on the international calendar. The event shall not be included on the national calendar, unless its request for inclusion on the international calendar is rejected.

The organiser of a Para-cycling event on a national calendar in which riders of many foreign federations participated, **as per Article 16.18.003**, must request the inclusion of the next edition of his event on the international calendar. Organisers of C1 events must **guarantee the minimum number of nations** as per **Article 16.18.003**, the event will be downgraded to C2 the following year.

National Federations shall upload applications for registration to the UCI no later than the 1st July for Road and the last Friday of July of the year preceding that for which registration is required for Track, Mountain Bike, BMX Racing, BMX Freestyle, Trials, Indoor Cycling, Road Para-cycling and Cycling for All. Regarding Para-cycling Track and Cyclo-cross, this date is set for 15 December.

The application of the National Federations must be filed according to the instructions given by the UCI administration and confirms the organiser's commitment to adhere to the UCI Constitution and Regulations.

If an event is raced through several countries, it shall only be included on the calendar with the agreement of the federation of each country concerned. **(Article 1.2.006)**.

HOW DOES IT WORK

1

In spring each year, this calendar registration procedure is sent to all National Federations and Continental Confederations per email with a hyperlink to download this document. An email is also sent to organisers who held events the previous year. In this email, there is a hyperlink to this document which is to be downloaded together with a pre-filled event specific registration form in attachment.

2

Organisers who held events the previous year must check, complete and approve the pre-filled form for their event(s) and send it by email to their National Federation in order to confirm the registration. In the case of a new organiser, they must contact the National Federation of the country/-ies in which the race takes place.

3

No later than **the 1st July** (Road), **the last Friday** of July (Track, Mountain Bike, BMX Racing, BMX Freestyle, Trials, Indoor Cycling, Para-cycling Road, and Cycling for All) or **December 15th** (Para-cycling Track and Cyclo-cross), the National Federations send every completed and approved registration form to the UCI by uploading them on this [link](#). Information about this procedure is detailed in the next section of this document. Registration forms sent directly by an organiser to the UCI, without going through the National Federation, are not accepted. Only National Federations are entitled to process registration forms.

4

The Commission of the discipline in question and/or the working group in question consider/s registration requests and draws up a calendar for the upcoming season.

5

The calendar for the following year will be presented to the UCI Management Committee for approval.

6

Once approved, the calendar will be published on the UCI website the first working day following the UCI Management Committee meeting. In order to simplify the procedure, an individual answer will not be sent to each National Federation or organiser.

HOW TO FILL IN THE REGISTRATION FORM

THE ORGANISER

EXISTING EVENTS

For each of their events, the organiser receives a pre-filled form in PDF containing specific information about the event as it appears on the draft calendar (available hereunder in this document). The organiser can make any necessary changes **directly in the pre-filled PDF file**. It must then be sent **by email , in its electronic format, to the National Federation for approval**.

NAME

In the event of any name change, the organiser must mention the name requested in the box provided.

DATES

The **draft calendars** are included here under for information only. Appearing on a draft calendar does not mean that the race is registered on the UCI calendar. Organisers must confirm the **registration of their race** by returning the required registration form to their National Federation.

Any requests for a change of date may be submitted to the UCI **via National Federations**. A **justification letter** must accompany with these requests.

If necessary, the UCI reserves the right to **change the dates** in order to avoid any competition between races which may be unfavourable to cycling.

NEW EVENTS

For registration of **new events**, extra forms can be obtained from the National Federation. Hyperlinks to blank registration forms for each of the disciplines can be found in the corresponding sections of this document. In accordance with the regulations, when registering a new race **a file must be submitted (Article 1.2.009 hereafter)**. This must reach the UCI at the latest on **the same registration deadline** set in **Article 1.2.006**. Nonetheless, **the organiser is obliged to announce beforehand its intention to register a new race to its National Federation who will send the organiser a blank registration form to fill in and return to their National Federation**.

1.2.009

The first time a race is submitted for inclusion on the international calendar, the organiser shall submit documentation including at least the following information:

- type of race (discipline, speciality, format);
- description of the course including total length (in km) and, where applicable, that of stages and circuits;
- the type and number of participating teams and/or riders' categories wanted;
- financial aspects (prizes, travel and subsistence expenses);
- references concerning organisation.

For the road, the documentation must be submitted to the UCI no later than three months before the meeting of the Management Committee at which the calendar in question finalised (in general, June 25th). For the other disciplines, the documentation must be submitted to the UCI at the latest on the same registration deadline settled in Article 1.2.006 for the other disciplines.

VALIDATION

By filing its application, the organiser commits to respect the UCI Constitution and Regulations (**Article 1.2.006**). The organiser attests to the information on the form by writing his name and the date at the bottom left of the form.

We remind you that each registration must be approved by the National Federation, which will send the information by uploading them on this [link](#) to the UCI no later than the dates set in **Article 1.2.006**.

Only the **electronic registration** forms can be used (no scan).

Registration requests which are **not in compliance** with the above-mentioned requirements, will be sent back to the National Federation concerned.

We draw your attention to the fact that according to **Article 1.2.012** of the UCI rules one of the requirements for registering an event on the International Calendar is **the payment of the invoices concerning the previous year's events (calendar fee) and any other financial obligation with the UCI**.

DEADLINE

The deadline for sending registration forms back to your National Federation by email is **at the latest 2 weeks , and 3 weeks for Road, before the deadlines settled in Article 1.2.006 of the Regulations, which are:**

1st July: **ROAD**

Last Friday of July: **TRACK, MOUNTAIN BIKE, BMX RACING, BMX FREESTYLE, TRIALS, INDOOR CYCLING, PARA-CYCLING ROAD, CYCLING FOR ALL**

December 15th: **CYCLO-CROSS, PARA-CYCLING TRACK**.

To ensure the UCI Sports Department can submit the UCI international calendars to the UCI Management Committee, we ask you to respect these deadlines.

THE NATIONAL FEDERATION

EXISTING EVENTS

In accordance with the regulations, when registering a new race **a file must be submitted (Article 1.2.009 hereafter)**. This must reach the UCI at the latest on **the same registration deadline** set in **Article 1.2.006**.

VALIDATION

The National Federation checks the amended PDF file, **approves it electronically** directly in the PDF file using the box "Approval of the National Federation" and returns it to the UCI Sports Department by uploading them on this [link](#).

DEADLINE

The National Federation requests the registration of the events by sending the registration forms received from organisers by uploading them on this [link](#) within the deadlines stated in **Article 1.2.006**:

1st July: **ROAD**

Last Friday of July: **TRACK**, MOUNTAIN BIKE, **BMX RACING**, **BMX FREESTYL**, **TRIALS**, INDOOR CYCLING, **PARA-CYCLING ROAD**, CYCLING FOR ALL

December 15th: **CYCLO-CROSS**, **PARA-CYCLING TRACK**

WHAT ARE THE COSTS?

UCI FINANCIAL OBLIGATIONS

The UCI establishes, for each calendar and each class of race, a range of calendar fees as well as participation allowances and prize money. These amounts are described in the UCI Financial Obligations.

You will find **hyperlinks** to the UCI financial obligations for each discipline in the relevant sections later on in this document.

ECONOMIC CLASSIFICATION

The amounts of calendar fees and prizes will be adapted based on the economic situation of the country. Therefore, reference should always be made to the coefficients of the Economic Classification of the countries. This Classification could be reviewed during the year.

RIGHT TO REGISTER

The registration fee of every event is subdivided into 2 parts:

1. UCI Calendar Fee

In compliance with **Article 1.2.012**, the inclusion of a race on the UCI international calendar shall be subject to the payment of a fee, called the calendar fee, the amount of which shall be set annually by the UCI Management Committee.

This fee includes allowances (expenses and travel) for officials (International Commissaires and Doping Control Officers) appointed by the UCI and enrolment fee for each race on the international calendar. The accommodation expenses (room + breakfast) remain payable by each organiser. The total amount of these fees must be paid in Euros, within the deadlines described in the **Article 1.2.012**. The UCI reserves the right to remove the race from the international calendar at any moment prior to the event should the calendar fee remain unpaid.

PAYMENT:

- The total amount of the fee must be paid by the organiser to the UCI upon reception of an invoice from the UCI. Invoices are sent 90 days before an event, or upon approval of the race in the calendar, whichever is later.

2. Annual Anti-Doping Contribution

- The annual anti-doping contribution can be found in the UCI Financial Obligations published on the UCI Website at [this link](#).

REGISTRATION REFUSAL

The inclusion of the race on the calendar **shall be refused if the previous year's fee as well as the penalty, have not been paid one month prior to the meeting of the Management Committee** at which the calendar in question is approved. Furthermore, a race registration shall be refused if the enrolment fees for previous races have not been paid or if the organiser does not honour its financial obligations with the UCI. This measure also applies to the new organiser of the race and, in general, to the organiser and/or race that the UCI Management Committee considers to be the successor of another organiser or another race. **(Article 1.2.012).**

INVITATION - ENROLMENT

In accordance with **Article 1.2.048**, without prejudice to the provision concerning Mountain Bike, BMX Racing, Indoor Cycling, Para-cycling, Cycling for All, Track and the Masters category, organisers of events registered on the international calendar are not allowed to demand from riders and/or teams any participation fee whatsoever (contribution to expenses, registration fees, etc).

OTHER ITEMS

NATIONAL CHAMPIONSHIPS

As stated in **Article 1.2.029**, National Road Championships shall be raced during the **last week of the month of June. However, the UCI Management Committee can decide to move this week back or forward due to major events (e.g. the Olympic Games).**

- National Cyclo-cross Championships shall be run on the date approved by the **Management Committee.**
- National Mountain Bike Championships XCO and XCC shall be run on the **29th weekend of the year. National Mountain Bike Championships for other formats can be organised at a different date than the mandatory date.**
- National BMX Racing Championships shall be run on **the first weekend of July.**
- National Trials Championships shall be run **on the last weekend of June.**
- National Indoor Cycling Championships should take place in principle **4 weeks before the UCI World Championships.**

The UCI may grant dispensations for the southern hemisphere or in cases of force majeure. It is highly advised not to register any other race during those periods. You will find **hyperlinks to the registration forms** for the National Championships for each discipline in the relevant sections later on in this document.

CONTINENTAL CHAMPIONSHIPS

The Continental Confederations must send the registration form to the organiser chosen for the organisation of the Continental Championships. The organiser must return this form to the Continental Confederation duly filled in and signed electronically. The Confederation approves the information by signing the form electronically and sending it to the UCI Sports Department no later than **June 1st for all the disciplines**. You can find **hyperlinks to the registration forms** for the Continental Championships for each discipline in the relevant sections later on in this document. For Track, the Continental Championships shall be organised at the latest during Week 3 before the Elite World Championships of the season.

DATE CHANGES

Any change to the date of an event included on the UCI international calendar shall be subject to prior authorisation by the UCI or, for a UCI WorldTour event, the Professional Cycling Council at the request of the National Federation of the organiser. If there is a change of date or if an event is cancelled, the organiser shall be liable for a fine or an additional fee, the amount of which shall be set each year by the UCI Management Committee (**Article 1.2.014**).

CLASSIFICATIONS AND CUPS

Please note that, according to **Article 1.2.026**, National Federations, their affiliates and licence holders and, in general, all bodies answerable to them shall be barred from participating actively or passively in any individual or team classification based on the races on the UCI international calendar other than those drawn up or expressly authorised by the UCI. Events conducted by an organiser who fails to comply with the preceding paragraph shall be deleted from the international calendar for the following year. **For Mountain Bike and Cyclo-cross, a "Cup/Series" will be comprised of no more than eight rounds.**

SPONSORS - GENERAL RULE

To ensure the integrity and image of cycling, the UCI has identified several categories of sponsors with whom stakeholders, including organisers, may not be associated (directly or indirectly). Thus, **Article 1.1.089** of the UCI Regulations provides that:

"Without prejudice of the applicable law, no brand of tobacco, spirits, pornographic bis products or any other products that might damage the image of the UCI or the sport of cycling in general shall be associated directly or indirectly with a licence-holder, a UCI team or a national or international cycling competition.

As defined in the present article, a spirit is a beverage with a content in alcohol of 15% or more."

In addition, **Article 1.1.090** of the UCI Regulations lays down certain conditions in relation to sponsorship by **betting companies** (including national lotteries). These conditions protect the integrity of cycling by reducing the risk of collusion and ensuring that visibility on cycling events is exclusively granted to betting operators whose activity does not cause a risk to the integrity of the sport.

The organiser seeking sponsorship by a betting company shall provide documentation establishing compliance with the conditions laid down in **Article 1.1.090** of the UCI Regulations with its request for registration before the UCI (the same applies in case the sponsorship is considered after the registration has been confirmed). We invite you to read this article carefully and remain at disposal.

FORBIDDEN RACES

Article 1.2.019

No licence holder may participate in an event that has not been included on a national, continental or world calendar or that has not been recognised by a National Federation, a Continental Confederation or the UCI.

Depending on the circumstances, a National Federation and the UCI may grant special exceptions for particular races or events run in its own country.

Particular races or events may consist of:

- Events organised occasionally only and which do not belong to the organised sports movement;
- Events whose format is not covered by the UCI regulations.

Any National Federation intending to grant a special exception must submit its reasoned request to the UCI administration at the beginning of the season and at least two months before the event in question. The decision of the UCI is final and shall not be subject to appeal.

An aerial photograph of a long, curved concrete bridge spanning a rocky coastline. The bridge is filled with cyclists in various colored jerseys, some riding in a line and others in smaller groups. A motorcycle is also visible on the road. The bridge is supported by several tall concrete pillars. The ocean is visible on both sides, with waves crashing against the rocks. The sky is clear and blue. A blue banner is overlaid on the right side of the image, containing the text 'SPECIFICITIES FOR ROAD'.

SPECIFICITIES FOR **2024 TRACK**

summary

SPECIFIC INSTRUCTIONS FOR THE UCI INTERNATIONAL TRACK CALENDARS

CLASSIFICATION

The class of the competition determines the points awarded to the participants as per the scale stated in the UCI regulations (**Title 3, Chapter III**).

As a reminder, it is possible to specify on the registration form the type of class (CL1, CL2, Nat) for each specialisation. The races at a national level (Nat.) can be registered as a complement to the UCI competitions.

The evaluation of the competitions registered in the 2022-2023 calendar determines the class in which they will be registered for 2024 season (as per art. 3.8.003).

Any event for which points counting for the UCI Track Ranking are awarded will need to respect the formats and/or minimal distances as stipulated in the UCI Regulations, failing this, points will not be awarded.

With regard to the minimum criteria for **categories**, if several categories participate in the same race, the category of the majority of participants will be taken into account only.

Younger athletes or masters can participate in elite races to expand the bunch. Nevertheless, riders younger than 18 years old will not score UCI points and must not be taken into account in the analysis of the minimum number of participating nations and riders (**Article 3.8.003**). 18-year-olds junior riders will score UCI points in elite ranking. In any case, all athletes must be included in the results.

For others **tournament**, different from the format as regulated by the UCI, (for example Sprinter's tournament on several days) as stipulated in art. 3.3.005, points will be awarded according to the overall standings of the speciality (for example individual sprint). If the tournament is made of several events (Sprint and Keirin), the event which will award the UCI points shall be clearly identified on the program of the competition and communicated to the UCI Track Department (track@uci.ch).

We remind that as per art. 3.3.003, if more than 50% of the riders per category are being invited, the awarded points will be of Class 2 points scale.

CLASS 1 EVENT

An event registered in Class 1 will automatically obtain the Class 1 points. Events won't be downgraded anymore, ensuring more security to riders and organizers. A Class 1 event will however have to respect the following requirements to keep its status the following year (all details in UCI **article 3.8.003**):

■ 4 PARTICIPATING NATIONS

The number of nations considered is the event among the programme in which the maximum of nations are represented. In terms of points granted to riders, any events in the programme registered as C1, riders will be awarded points according to the scale provided for a **class 1** event.

However, if some events in the programme have **only 3 nations or less** at the start, the competition might be downgraded in Class 2 or national the following year.

Attention: This analysis must be made on the basis of the riders participating in the specific category of the event only (for example a Scratch race Men Elite, nations and number of elite riders will be taken into account only).

■ EVENTS FOR MEN ELITE AND WOMEN ELITE

plus 1 other categorie to be chosen from Men or Women U23, Men or Women Junior, or Para-cycling.

The requirement of events for **3 categories** to be organised within the competition's programme take into account all events organised, **even national event or those with one country represented at the start**. Different categories can be combined in one race. Nevertheless, the category of the majority of participants will be taken into account only. Participants belonging to another category must be included in the results but will not receive UCI points.

■ 5 COMPETITIONS MINIMUM

(event part of the World Championships programme in one category).

The requirement of competitions take into account any event's type represented at the World Championships, regardless of the number of nations at the start of those events.

■ MINIMAL NUMBER OF RIDERS PER EVENT ELITE AND U23

In addition to the participating nations criterias, each event must have a minimal number of participants to fulfill the requirements.

- Sprint : 8 riders (**Article 3.2.031**)
- Keirin : 10 riders (**Article 3.2.135**)
- Bunch races: 15 riders
- Madison: 10 teams

CLASS 2 EVENT

This class event must fulfil the following criteria:

■ 3 PARTICIPATING NATIONS

The number of nations considered is the event among the programme in which the maximum of nations are represented.

In terms of points granted to riders, any events in the programme where **at least 3 nations** are competing, riders will be awarded points according to the scale provided for a **class 2** event.

If some events in the programme have **between 1 to 2 nations** or an insufficient number of riders at the start, **no points will be awarded** to riders competing.

■ EVENTS FOR MEN ELITE OR WOMEN ELITE

plus 1 other category to be chosen from Men or Women Elite, Men or Women U23, Men or Women Junior, or Para-cycling.

The requirement of events for **2 categories** to be organised within the competition's programme take into account all events organised, **even national event or those with one country represented at the start**.

Different categories may be grouped together in the same race. However, the category of the majority of the participants will be taken into account only. Participants belonging to another category must appear in the results but will not receive UCI points.

■ 3 COMPETITIONS MINIMUM

(event part of the World Championships programme in one category).

The requirement of competitions take into account any event's type represented at the World Championships, regardless of the number of nations at the start of those events.

■ MINIMAL NUMBER OF RIDERS PER EVENT ELITE AND U23:

In addition to the participating nations criterias, each event must have a minimal number of participants to fulfill the requirements.
